American Journal of Physiology
(consolidated)

full text online at ajpcon.org

To start your SUBSCRIPTION, e-mail: subscriptions@the-aps.org
To submit your MANUSCRIPT, go to: www.apscentral.org

The consolidated American Journal of Physiology (AJP) ranks as one of the most frequently cited publications among all physiology journals listed in the Journal Citation Index. Published in two monthly volumes by The American Physiological Society, the consolidated AJP brings you approximately 2,700 articles encompassing over 22,000 pages annually.

The consolidated edition of the AJP provides comprehensive coverage of the latest research published in these important specialty journals:
- Cell Physiology
- Endocrinology and Metabolism
- Gastrointestinal and Liver Physiology
- Lung Cellular and Molecular Physiology
- Heart and Circulatory Physiology
- Regulatory, Integrative and Comparative Physiology
- Renal Physiology

As your comprehensive source for the full spectrum of current physiological research at a single low subscription price, the consolidated AJP is an unbeatable value.

Benefits
- Perpetual/Electronic Archiving—The consolidated AJP is part of LOCKSS and CLOCKSS.
- Counter-Compliant Usage Statistics—Online access to counter-compliant usage data is available to all institutional subscribers.
- Reference Linking—The consolidated AJP participates in CROSSREF, a reference linking service that turns citations into hyperlinks, allowing researchers to navigate online literature at the article level.
- Fully Searchable Text—Fully searchable text is available, including PubMed.
- Advance Tables of Contents & CiteTrack—Sign-up for e-mail notification of advance tables of contents and new articles matching a search criteria of your choice.
- Articles in Press—Accepted research papers are published online within a few days after their acceptance.

AuthorChoice
www.authorchoice.org

Authors can choose to pay a fee on top of regular author fees and have their article made free immediately ($2,000 for research articles and $3,000 for review articles).
Physiological Genomics

Call for Papers

Physiological Genomics

Comparative Genomics

Physiological Genomics seeks original research articles, reviews (mini- or full-length), and editorials in the field of comparative genomics. Research in this field is changing dramatically due to the large amount of sequence being generated from a number of key organisms and the likelihood that many additional species will be sequenced in the future. Papers may detail genetic comparisons across species to identify gene structure, predict the physiological function of genes, and elucidate evolutionary relationships. Papers may also describe comparative approaches to structural genomics or research strategies that can be used to facilitate sequencing in other closely related species. Other appropriate topics include studies in comparative physiology that take advantage of commonalities between particular organisms at the genomic level, pharmacogenomics, proteomics, bioinformatics/computational biology, and translational research. Submissions in this area will be published, if they are accepted pending peer review, under a special banner in the online and print versions of the journal. When corresponding authors submit their manuscript online, they should indicate their response to this call for papers in an accompanying cover letter and designate their specific Manuscript Type as “Special Call for Papers.”

For any specific queries please contact the Editor-in-Chief, Allen W. Cowley, Jr. (E-mail: pgeditor@mcw.edu).
INSIGHTFUL RESEARCH IN THE BIOMEDICAL SCIENCES STARTS WITH ANNUAL REVIEWS

APS Members Save 20% on ALL Annual Reviews Publications!

Please mention priority code JAPG09 when placing your order.

Call: 800.523.8635 (US/CAN)
650.493.4400 (WORLDWIDE)
Fax: 650.424.0910 (WORLDWIDE)
Email: service@annualreviews.org
Online: www.annualreviews.org

Handling and applicable sales tax additional. Order via phone, fax, email, or online. Institutional pricing and site license options available. Contact Annual Reviews for details.

Annual Review of Physiology
VOL. 71, MAR. 2009 | Available Online & in Print
Editor:
David Julius
California State University, San Francisco
APS Price (Worldwide): $71.20
Regular Personal Price (Worldwide): $89
ISSN: 0066-4278 | ISBN: 978-0-8243-0371-6
Access online now at:
http://physiol.annualreviews.org

Annual Review of Genomics and Human Genetics
VOL. 10, SEP. 2009 | Available Online & in Print
Co-Editors:
Aravinda Chakravarti
Johns Hopkins University, School of Medicine
Eric Green
Bethesda, Maryland
APS Price (Worldwide): $67.20
Regular Personal Price (Worldwide): $84
ISSN: 1527-8204 | ISBN: 978-0-8243-3710-0
Access online now at:
http://genom.annualreviews.org

Annual Review of Genetics
VOL. 43, DEC. 2009 | Available Online & in Print
Editor:
Allan Campbell
Stanford University
APS Price (Worldwide): $67.20
Regular Personal Price (Worldwide): $84
ISSN: 0066-4197 | ISBN: 978-0-8243-1243-0
Access online now at:

Genetics and Genomics of Vascular Disease Workshop
Sponsored by the North American Vascular Biology Organization
September 13-16, 2009 • Cape Cod, MA

Keynote Lecture:
Hal C. Dietz, III
Howard Hughes Medical Institute, Johns Hopkins University

Organized by:
Douglas A. Marchuk, Duke University Medical Center
Miikka Vikkula, de Duve Institute, UCL

Speakers will include:
Timothy J. Aitman • Joyce Bischoff
Johan Björkegren • James E. Faber • Murat Gunel
Bruce J Herron • Anne Joutel • Mark Kahn
Vyacheslav A. Korshunov • Markku Laakso
Esther Lutgens • Ruth McPherson • S. Paul Oh
Bjorn R Olsen • Niles J Samani • Ann Marie Schmidt
William C. Sessa • Svati H. Shah • Rong Wang

Covering the following topics:
Adult Vascular Disease
Developmental Vascular Disorders
Human Vascular Malformations • Ischemic Disease
Metabolic Syndrome • Tumor Angiogenesis

Abstract submission deadline: JULY 1, 2009

For more information go to:
www.navbo.org/event/GGVD
or call (301) 760-7745

FREE necessary Color for Members

Regular or Student Members of the American Physiological Society (APS) who are first or last authors of articles in the APS research journals get FREE, scientifically necessary COLOR. (Excludes Physiological Reviews and Physiology)

If you are not yet an APS Member and are planning to submit a manuscript that requires color to any of these journals as a first or last author, then you need to apply for membership today in APS.

We provide you several convenient ways to apply for Membership. Just go to our web site and select your choice at:
www.the-aps.org/membership/application.htm

Questions? Contact us today.
The American Physiological Society
Tel: 301-634-7171 • Fax: 301-634-7246
E-mail: members@the-aps.org • Web: www.the-aps.org

Need to promote open positions, fellowship opportunities, programs, or conferences in physiology?

Advertise in the publications of The American Physiological Society (APS). The APS publications are a perfect way to advertise to research investigators, clinicians, educators, and information specialists in all disciplines of physiology. Two of the APS publications, *Physiology* and *The Physiologist* are distributed to over 11,500 APS members. Recruitment and product advertising are available.

- The society’s newsletter, *The Physiologist* and the beautifully illustrated journal, *Physiology*, are sent to over 11,500 members
- Some issues featured at high attendance meetings like the Society for Neuroscience and Experimental Biology annual meetings
- Email ads available
- APS eNews Update now accepts advertising
- Online ad design is now available

Contact FASEB AdNet at 301-634-7156 or email adnet@faseb.org for an ad estimate.
View APS rate card and full media kit at www.faseb.org/adnet.
Authors:

Publish your name in your native language

Authors who publish in APS journals may now present their names in non-Latin characters (in their native writing system) alongside the standard English transliteration of their name in the main author line of the published article; for example, “Ta-Ming Wang (王大明)”.

We will accept any non-Latin languages that have standard Unicode characters designated for the native characters. For authors that choose this option, please only provide the native expression for the original written form of the transliterated name; that is, do not include any associated degree, rank, or title information in the native format. This feature is meant for the person’s name only, not for ancillary information regarding academic achievement or institutional affiliation.

To take advantage of this new feature, please insert the native expression of your name alongside the English transliteration in the main title page of your manuscript submission.

Just Amazing! PODCASTS

from The American Physiological Society

LIFE LINES PUTS THE “PHIZZ” IN PHYSIOLOGY

Listen to or download your choice of these (and more) amazing podcasts available today at:

www.lifelines.tv
Sex Steroids and Gender in Cardiovascular-Renal Physiology and Pathophysiology

Date & Location: July 15-18, 2009
Omni Interlocken Resort, Broomfield, Colorado

Abstracts Due: April 3, 2009
Advance Registration: June 12, 2009

Preliminary Program:
- Sex and Sex Steroids in Renal Function
- Role of Sex Chromosomes in CV-Renal Physiology and Pathophysiology
- Sex Differences in Neural Interactions with Cardiovascular-Renal Systems
- Controversies in the Vascular Actions of Estradiol
- Exercise and Cardiovascular-Renal Health in Men and Women
- Sex Steroids in Stroke
- Sex Steroids and Inflammation

ET-11: APS International Conference on Endothelin

Date & Location: September 9-12, 2009
Marriott Chateau Champlain, Montréal, Canada

Abstracts Due: May 22, 2009
Advance Registration: August 7, 2009

Preliminary Program:
- Cellular Regulation of the Endothelin Pathway
- Pharmacology of Endothelins
- Endothelin in Development and Aging
- Pulmonary Function and Disease
- Career Symposium
  Panel Discussion: The marriage between academia and the pharmaceutical industry - ET shows us the way
- Roles of Endothelin-1 on Cardiac Function and Diseases
- Roles of Endothelin-1 on Vascular Function and Diseases
- Endothelin-1 Renal, Fluid and Electrolyte Physiology and Disease
- Clinical Trials with ET Antagonists: An Update
- Roles of Endothelin-1 in Neurophysiology, Stroke and Related Diseases
- Endothelin-1 in Cancer and Blood Diseases
- Endothelin-1 in Inflammatory Diseases and Pain
